Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 15-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

In claims 15, it is not understood what are meant "at least one combined piercing and cutting member, and with said self-opener sleeve".

In claim 16, lines 6-end, it can not know where "two projecting edges" come from, which ones "are rotatable relative to said spout integrally formed on said lower side of said rotary cap lower side and ..."

In claims 18, 19, 20 and 25, it can not be determined what is "a lid" of said rotary cap.

- 3. In view of the 35 U.S.C. 112 issues, comment as to the allowable of these claims can not made at this tine because the claims can not be understood in order to compare with the prior art.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-
